

# Rohit Bommisetti

New York City, NY

## WORK EXPERIENCE

### MindMaze Inc

Raleigh, NC

#### Product Management Intern

August 2023 to December 2023

- Supported the company through rapid growth by building an internal help center that centralized critical product information & updates for 250+ employees.
- Worked with Chief Product Officer (CPO) to lead extensive user interviews across all departments, gathering critical insights from 15+ user interviews that informed user-centric improvements in product design and functionality.
- Researched and integrated Confluence Plugin (MacroSuite) with the IT Team and saved over \$3000 in recurring overhead for the company. Streamlined product development through JIRA, from roadmap creation to sprint execution, fostering efficient collaboration and delivering features 15% ahead of schedule.
- Launched successfully by the end of Q4 and presented a product demo at an company-wide product meeting.

### CoLab

Pittsburgh, PA

#### Director

June 2022 to April 2023

- Began the first community at University of Pittsburgh for student founders with a mission to build the next generation of founders in the American Midwest.
- Ran fireside chats with YC Alumni and investors from a16z, Dorm Room Fund, and Contrary Capital. Spearheaded student interest for startups with bi-weekly workshops on ideation, finding PMF, and fundraising.
- Led an 8-week engineering sprint (Linear) to build website (React), along with wireframe flows alongside design team in Figma. Conducted an A/B Testing campaign that drove an 53% increase in student membership.
- Ideated marketing strategy & foster key relationships with university administrators that led to being featured on a student emailing list with 15,000 undergraduate students. Formed cross-university partnerships with student entrepreneurship groups at University of Michigan (V1 Michigan), and Stanford University (Friends & Family)

### Chubb

Philadelphia, PA

#### Software Engineering Intern, NLP

May 2021 to September 2021

- Chubb is the world's largest publicly traded property & casualty insurance company, containing \$20 billion in assets.
- Built the data pipeline for AI-generated chemical risk daily newsletter for 30,000 international employees using Python, SQL, Twitter API and XML Feeds. Assisted risk experts in better identifying chemical risk by 40% through AI and improved operational workflow for Chubb executives across the world.
